

AMERICAN ROULETTE

RULES FOR AMERICAN ROULETTE

The rules for American Roulette at this casino, set out below, are our commitment to the players in ensuring that the gambling we offer is 'Fair and Open'. In the event of a dispute resulting from any ambiguity in the rules, the decision shall always be in the player's favour until that ambiguity has been resolved.

- The player plays against the House.
- The game of Roulette is played with a wheel, which has been divided into 37 equal compartments, 0-36 inclusive, and one ball.
- The wheel is spun in one direction by the Dealer and the ball is always spun in the opposite direction.
- The players can place their bets on the layout either before the ball is spun or during the time that the ball is spinning but may not place, change or alter any bets after the Dealer has announced 'No more bets'.
- All wagers placed are only valid for one spin.
- Players may place their wagers on the following options on the layout as shown below.
- When the ball has settled in a number, that number is deemed to be the winning number and the players are paid out at the appropriate odds as shown by the table to the right by the Dealer.
- When the winning number is zero; half of each wager on any even chance bet (those wagers if won being paid at odds of 1 to 1), shall be lost and surrendered to the House and the remaining half returned to the player.
- Any bets not associated with the winning number are lost and surrendered to the House.
- Should a 'No spin' occur, then the wagers on the layout are void and will be valid for the next spin.
- The accuracy of the number displays cannot be guaranteed.

A PLAYERS GUIDE TO THE HOUSE EDGE

The House Edge is a measure of how much the House expects to win, expressed as a percentage of the player's wager. For example, in a wager with a House Edge of five percent the player will lose, on average over time, £5 for every £100 wagered. House Edges vary by region, casino and game. In some games, player betting or skills decisions can affect the Edge, but it's important to keep in mind that the House always has some advantage against the typical player.

THE HOUSE EDGE FOR AMERICAN ROULETTE: EVEN CHANCE WAGERS IS 1.35%

ALL OTHER BETS WAGERS ON THE LAYOUT IS 2.70%

AMERICAN ROULETTE
